- ▲ *Plants are sold in groups of 25 plants, except for the mixed hardwood package.*
- ▲ *Payment (check or money order) must accompany order.*
- ▲ *All plants are shipped bareroot. They will need to be planted as soon as possible after pick-up.*
- ▲ *Plants must be picked up in Medford or Phillips. The pick-up date is expected to be April 27, weather permitting. You will be notified by mail to verify the pick-up date and locations.*
- ▲ *If a significant number of plants are not of specified size or adequate health, it will be your responsibility to make this known to the LCD before they are planted and within one week of pickup.*
- ▲ *If the nursery is unable to fill the order as specified, any payment will be refunded. Except for such refunds, Taylor County will not be responsible for any other associated difficulties or losses.*

TYPE and SPECIES	SIZE/AGE	USES							NOTES			
		WILDLIFE			PRODUCTS		SHORELANDS	SOIL, MOISTURE REQUIREMENTS	LIGHT REQUIREMENTS	TYPICAL MATURE HEIGHT	<i>Plants that are attractive to native pollinators are indicated under the wildlife notes. Because honeybees are declining, native bees and other native pollinators are more important than ever to agriculture and the environment.</i>	
 Our selection of trees and shrubs provides choices for wildlife habitat, shoreland restoration, landscaping, windbreaks, and reforestation.	S = Seedling T = Transplant P = Container (e.g: S2-T2 means two years as a seedling and two years as a transplant.)	FOOD	COVER or NESTS	WILDLIFE NOTE	LUMBER-L PULP-P FIREWOOD-F	OTHER HUMAN USES						
							HARDWOODS					
Red Maple (<i>Acer rubrum</i>)	12-18" S2	X	X	Seeds 	L, P, F	Syrup	X	Somewhat dry to moist	Full sun to part shade	40-70'	Fast growing; yellow to red fall color	
River Birch (<i>Betula nigra</i>)	12-18" S2	X	X	Birds eat buds, seeds.	L, P, F	Erosion control	X	Moist to periodically wet but tolerates dry.	Full sun to part shade	40-50'	Fast growing; flaky bark with interesting texture; yellow fall color; resistant to bronze birch borer	
Hackberry (<i>Celtis occidentalis</i>)	12-18" S2	X	X	Fruit eaten by birds and mammals	L,F	Erosion control, edible fruit	X	Prefers moist but is adaptable; rich soil	Full sun, tolerates some shade	50-60'	Fast growing; dark red to black berries; light yellow fall color; tolerant of poor conditions	
Bur Oak (<i>Quercus macrocarpa</i>)	12-18" S2	X	X	Acorns	L, P, F			Moist to dry	Full sun	50-80'	Moderate growth rate; long-lived; russet-red fall color	
HARDWOOD PACKAGE	20 plants – 5 each of the above hardwoods. Also available in separate groups of 25.											
CONIFERS												
Balsam Fir (<i>Abies balsamea</i>)	12-16" S2-T3	X	X	Seeds	L, P	Christmas trees, boughs	X	Dry to moist	Full sun to shade	40-60'	Growth rate varies; traditional Christmas tree	
White Spruce (<i>Picea glauca</i>)	7-15" S2-T2	X	X	Seeds	L, P		X	Moist, well-drained	Full sun to part shade	75-100'	Slow-growing; long-lived, deer resistant	
Black Spruce (<i>Picea mariana</i>)	12-18" S2-T1	X	X	Seeds	L, P	Christmas trees	X	Wet to well-drained	Full sun to part shade	20-40'	Slow-growing; deer resistant	
Red Pine (<i>Pinus resinosa</i>)	7-15" S2-T2	X	X	Seeds	L, P			Dry to well-drained	Full sun	50-80'	Fast-growing; long-lived; drought tolerant	
White Pine (<i>Pinus strobus</i>)	7-15" S2-T2	X	X	Seeds	L, P		X	Dry to moist	Full sun to part shade	80-150'	Fast-growing; long-lived	
White Cedar (<i>Thuja occidentalis</i>)	12-16" S2-T2	X	X	Seeds	L	Posts	X	Wet to moist	Full sun to part shade	40-60'	Slow-growing; heavy deer browse possible, especially in winter	
SMALL TREES / SHRUBS												
Serviceberry (<i>Amelanchier laevis</i>)	12-18" S1	X	X	Fruit eaten by birds and mammals; pollinators 		Edible fruit	X	Dry to moist, well-drained	Full sun to part shade	20-40'	Showy white flowers; early blossoming; blue/purple edible fruit; yellow to red fall foliage
