CHILD SUPPORT

Michelle Kurth

Wisconsin law mandates that each county implement a child support and paternity establishment program. The State has a contract with each County Board to include the following: paternity establishment, investigation, establishment of child and medical support obligations, location of absent parents, financial assessment of the absent parent's ability to provide support, monitoring payment activities, processing case flow and enforcing support obligations, including maintenance, provided that a court of competent jurisdiction has entered such an order and that minor children are involved.
